

Our active projects

Since 2013, SwissLimbs, **trained** more than **250 orthopedic technicians**, **performed** over **40 training missions**, has **donated** more than **2,500 prosthetic limbs**, **created 7 orthopedic clinics** in Africa, **built a rehabilitation center** in a refugees settlement in Uganda and **built a rehabilitation hospital** in Tanzania.

 **SwissLimbs**
Mobility now.

Mobility should be a human right for

*everyone,
everywhere.*

SwissLimbs is a Swiss non-profit Association active in **humanitarian and development & cooperation projects** in vulnerable countries. It began its missions in the Middle East in 2013 and has been registered as a charitable organization since 2016.

SwissLimbs offers technological innovations through training local professionals in the rehabilitation field, offering low-cost solutions and **access to advanced mobility for people with disabilities** living in conflict areas and disadvantaged countries, mainly in Africa. SwissLimbs is currently active in Uganda, Tanzania, Mozambique, Rwanda, Malawi, Sierra Leone and Guinea-Bissau, and will launch projects in Nicaragua and Ghana in 2022.

SwissLimbs' main activities are:

- **Supply and development of ortho-prosthetic processes, products, materials and machinery:** SwissLimbs assists amputees and disabled people in providing affordable orthopedic equipment and materials designed specifically for developing countries.
- Creation and rehabilitation of **ortho-prosthetic workshops**, a **Rehabilitation Center** and a **hospital**.
- **Specialized training for technicians on site:** SwissLimbs has a pool of specialized trainers at home and abroad, who teach orthopedic professionals in the most innovative low-cost ortho-prosthetic technologies.
